CAMERON STELZER

AUTHOR VISIT

It is a very interesting process that the author goes through. I learnt about all the processes they go through. My favourite book series of his is *Pie Rats*. I also liked the drawing activity and the slide shows. Josh

The author told us a lot of things about how to write amazing and interesting books. He was sometimes funny and he told us why he made the book, *Pie Rats*. He told us all about when he was a little boy and I had a great time.

Matteo

I enjoyed drawing a picture of two of the characters in his books. It looked hard but it was actually really easy. I learnt that his favourite toy as a child was Lego. Parts in his books were fun and funny too, like the ‘pie rats’ and the ‘sea dogs’. I think that he was very imaginative and creative. It was really fantastic.

Mia

I really enjoyed Cameron Stelzer because he was really inspiring. My favourite part was when we got to draw a ‘cat fish’ and ‘sea dog’. I especially loved hearing how he came up with his series, *Pie Rats*, and all his ideas. I thought it was really interesting.

Alicia

I liked that he was funny and that he didn’t just read the books, he told us about them. He told us how to draw some of the characters. It was very inspirational for me to write more books.
