On Tuesday 16th June,

the Senior School held their Studies of Asia Expo which was the culmination of five weeks of research and planning by the students. The result was a fantastic showcase of sounds, smells and colours, highlighting a range of Asian cultures, countries and people. The students were visited by parents and teachers and students from the Middle and Junior school and were able to share what they’d learnt about Asia through a range of media such as dance, cooking, artwork and hands-on activities.
